Donegan Optical Company, Inc. since 1952 has been manufacturing precision visual aids for industry, home, office and crafts. Donegan products are 100% USA fabricated in our Lenexa, Kansas facility where we are fully equipped for precision glass grinding and polishing, injection and compression plastic molding, and design and tool development. Quality is our goal from the design to the finished product. Donegan Optical Company also distributes other domestic manufactured products as well as some imported visual aids. Every product manufactured or sold by Donegan Optical Company is guaranteed to function as intended and to be as listed. We have been manufacturing quality products for over 45 years and our promise to our customers is for continued quality and service with our product line.

All D.O.C. products featured on pages 3 thru 13 are manufactured in U.S.A. by skilled craftsmen.
VANTAGE PRODUCTS
Popular Multi Purpose Magnifiers

V-309-15 Coddington Magnifier
Double lenses mounted in chrome plated case, 15mm. lens, 10X Magnification.

V-309-23 Coddington Magnifier
Same as above but with 23mm. lenses, 10X Magnification.

V-400 Double Coddington,
has one 15X (15mm.) and one 20X (10mm.) swing out double lens systems in chrome plated brass case. Vinyl carrying case.

V-697 Bar Reader
Fits comfortably in pocket or purse. Lays directly on printed page. 5 3/4” X 1” plastic lens with vinyl carrying case. 5X cyl. lens

V-906 Pocket Magnifier
45mm. Dia. glass lens in cowhide leather case, swings out for use. 3 1/2X magnification.

V-341-T Triple Folding Pocket
Magnifier
5X, 10X or 15X glass lens in black plastic frame.

OptiVISOR & OptiLOUPE

OptiVISOR®
A precision binocular headband magnifier which permits unrestricted user efficiency while reducing eye strain - leaves both hands free and allows three dimensional vision - Used by anyone whose profession or craft requires close accurate work - Can be worn over prescription or safety eyeglasses.

OptiVISOR® is equipped with these unique features:
• Optical Glass Prismatic Lenses - Ground and polished to precision optical standards - bevel edged and mounted in interchangeable plastic frame.
• It tilts - Adjustable pivots allow the visor to be tilted out of the way when not needed and at your fingertips when you need magnification.
• Adjustable Headband - Conforms to fit all head sizes - fabricated from a special blend of lightweight material - comfortable when worn for long periods of time.
• High Impact visor - Provides a tough, durable, always new appearance.
• Genuine Leather Comfort Band - Padded with orthopedic felt adds to comfort.

Order OptiVISOR® in any of these six lens options:

OptiVISOR® Option
Catalog No. DA-2
Magnifies 1 1/2 X at 20”

Catalog No. DA-3
Magnifies 1 3/4 X at 14”

Catalog No. DA-4
Magnifies 2 X at 10”

Catalog No. DA-5
Magnifies 2 1/2 X at 8”

Catalog No. DA-7
Magnifies 2 3/4 X at 6”

Catalog No. DA-10
Magnifies 3 1/2 X at 4”

OptiLOUPE®
The OptiLOUPE® is an attachable lens that adds the additional power of an Eye Loupe to the OptiVISOR®.

• Designed for Monocular use, the OptiLOUPE® easily flips up or down providing additional 2 1/2 X magnification.
• Easily attaches to either eye of any OptiVISOR®.

V-309-15 Coddington Magnifier
V-309-23 Coddington Magnifier
V-400 Double Coddington
V-697 Bar Reader
V-906 Pocket Magnifier
V-341-T Triple Folding Pocket

Visor tilts up for normal viewing.

Hands-free magnification with adjustable headband.

OptiVISOR®
OptiLoUPE®

As seen by normal vision

Catalog No. D-8-2
Magnifies 1 1/2 X at 20”

Catalog No. D-8-3
Magnifies 1 1/2 X at 14”

Catalog No. D-8-4
Magnifies 2 X at 10”

Catalog No. D-8-7
Magnifies 2 1/2 X at 8”

Catalog No. D-8-8
Magnifies 2 1/2 X at 6”

Catalog No. D-8-10
Magnifies 3 1/2 X at 4”

Lens for Models

Catalog No. LP-1
Monocular attachable lens, adds 2 1/2 X to all models
All the fine quality and features you expect from the OptiVISOR.

Lightweight lenses and tough materials are designed to last a lifetime.

Optical prismatic lenses from precision ground and highly polished molds.

Adjustable side pivots allow the visor to tilt at your fingertips.

Dial adjustment headband conforms to comfortably fit all head sizes.

Genuine leather padded comfort band with orthopedic felt for extra comfort.

OptiVISOR

V-394-15X Achromatic Magnifier, Coated lens systems voids color aberrations. 15mm. lens mounted in beautifully finished chrome plated brass case. Comes with vinyl carrying case.

V-394-20X Achromatic Magnifier, Same as above except offers the higher magnification.

V-980-5 Flashlight Magnifier Popular magnifier, sets on item to be magnified and lights viewing area, bottom scale for accurate measuring. 50MM lens, 5X magnification. Uses 2 “D” cell batteries (not included), boxed.

V-980-10 Flashlight Magnifier Same as above, but 30MM lens and 10X magnification. Uses 2 “C” cell batteries (not included), boxed.

V-350 Jewelers Eye Loupe Glass lens in black plastic frame. Focal length: 2” f.l. (5X) magnification.

V-360 Jewelers Eye Loupe (double) Glass lenses snap together in a black plastic frame. Can be used as single 2 1/2” f.l. (4X) or double 5/8” f.l. (12X)

V-388-1 Linen Tester, Double lenses mounted in black enameled brass frame, folds flat. Used in graphic arts, engraving and industrial inspection. 1” Lens, 5X Magnification

V-388-3/4 Linen Tester, Same as above but with 3/4” Lens, 6X Magnification

V-388-1/2 Linen Tester, Same as above but with 1/2” Lens, 8X Magnification

V-394-15X Achromatic Magnifier, Coated lens systems voids color aberrations. 15mm. lens mounted in beautifully finished chrome plated brass case. Comes with vinyl carrying case.

V-980-5 Flashlight Magnifier Popular magnifier, sets on item to be magnified and lights viewing area, bottom scale for accurate measuring. 50MM lens, 5X magnification. Uses 2 “D” cell batteries (not included), boxed.

V-980-10 Flashlight Magnifier Same as above, but 30MM lens and 10X magnification. Uses 2 “C” cell batteries (not included), boxed.

V-388-1 Linen Tester, Double lenses mounted in black enameled brass frame, folds flat. Used in graphic arts, engraving and industrial inspection. 1” Lens, 5X Magnification

V-388-3/4 Linen Tester, Same as above but with 3/4” Lens, 6X Magnification

V-388-1/2 Linen Tester, Same as above but with 1/2” Lens, 8X Magnification

V-394-15X Achromatic Magnifier, Coated lens systems voids color aberrations. 15mm. lens mounted in beautifully finished chrome plated brass case. Comes with vinyl carrying case.

V-980-5 Flashlight Magnifier Popular magnifier, sets on item to be magnified and lights viewing area, bottom scale for accurate measuring. 50MM lens, 5X magnification. Uses 2 “D” cell batteries (not included), boxed.

V-980-10 Flashlight Magnifier Same as above, but 30MM lens and 10X magnification. Uses 2 “C” cell batteries (not included), boxed.
Lightweight and Economically priced readers
Quality lightweight acrylic lenses produced to high ophthalmic standards. They have durable ABS plastic handles in attractive color. Designed for comfortable use in either hand. All are attractively packaged and make ideal gifts.

C-624 Rectangle Reader
2”x4” lens, 4.5” diopter, 9” focal length

C-602 Round Reader (not shown)
2.5” len, 7” diopter, 6” focal length

C-603 Round Reader (not shown)
3.25” len, 5” diopter, 8” focal length

C-604 Round Reader (not shown)
4” len, 4.5” diopter, 9” focal length

C-610 Lighted Handi-Mag
2”x4” lens, 4.5” diopter, 9” focal length

C-625 Rectangular Reader with bifocal (not shown)
2”x4” lens, 4.5” diopter, 9” focal length

C-610 Illuminating Hand Magnifier
2”x4”, 4.5 diopter acrylic lens is produced to high ophthalmic standards. Bright 6 watt bulb and brilliant reflector cover adapts for both right and left hand use. Natural hold switch activates light when in use and allows for automatic shut-off of light when not in use. Detachable cord with strain relief easily unplugs for use with or without light. Additional bulbs and power supplies can be ordered separately for convenient replacement.

VisorLIGHT™ is a unique lightweight battery powered light, that illuminates magnified viewing area. It easily clips onto the visor of most headband binocular magnifiers. The light adjusts up or down to ensure that maximum light is on the work area. Two models are available to allow complete mounting: LT-42 (shown above) with a 42” long cord so the battery pack can be worn on a belt or placed in a pocket. LT-06 (shown below) with a 10” short cord for mounting directly on a headband.

• Hands Free Light
• Xenon Laserbeam Bulb
• 6000 Candle Power
• 4 To 5 Hours Battery Life . . . Continuous Use
• Model LT-06/Visor Mounting . . . 10” Cord
• Model LT-42/Extended Battery Pack Mounting . . . 42” Cord
• Operates on two AA batteries (not included)
Available in a variety of powers and focal lengths as shown on chart below:

**Special Features**
- Dual prismatic lens system designed to ease eye strain by convergence on focal point.
- Lightweight frame easily clips onto most eyeglass frames or can be used with convenient binocular frame.
- Ideal for reading fine print, sewing, art projects, fly tying etc.
- Easily flips up for normal viewing and down when magnification is preferred.
- Relieves eye strain and increases accuracy.
- Hands free magnification for many small tasks.

**THE MASTERPIECE COLLECTION FEATURES**
- Optical Glass Lenses ground and polished to precision standards.
- Scientifically balanced and contoured handles for comfortable use in either hand.
- Functional Design with wide rim to protect lens surfaces.
- Individually packaged - makes ideal gifts.

**M-802 Round Magnifier (not shown)**
- 2 1/2" round lens, 7 diopter power, 6" focal length.

**M-803 Round Magnifier (not shown)**
- 3" round lens, 8 diopter power, 5 1/2" focal length.

**M-804 Round Magnifier**
- 4" round lens, 4 diopter power, 10" focal length.

**Flex-A-Mag . . .204D**
This desk base magnifier is designed for stability and appearance. The powerful 4 diopter lens is selected for best field of view and focal length. Convenient adjustable flex arm leaves hands free for work, making small jobs go faster and easier.
- Light weight optical grade Acrylic Lens is mounted on a 12" flexible arm for convenient use.
- Leaves hands free for work under the powerful 4 diopter lens.
- Makes small jobs go faster and easier.
Eyeglass Loupe

The ultra-light Eyeglass Loupe is designed with maximum comfort and utility. Lenses are high quality optical grade materials from precision ground and polished molds. Very lightweight and tough materials provide superior durability.

The lens pivots out of the way for normal viewing and easily aligns when magnification is needed. Eyeglass Loupes are available in single or double lens combinations with a variety of focal length and powers. Changeable cams are included to fit eyeglass frames from 1/16” to 1/4” temple width. The eyeglass clamp easily converts from right to left temple mounting.

875 EZY-MAG

A precision made, highly efficient, lightweight magnifier with a unique double-lens arrangement. Leaves hands free-ideal for close work. Frame design protects the lenses. Attractive opaque neutral color reduces reflection. Large 4” utility lens and small high power inspection lens made of an optical quality acrylic material. Beautifully boxed-makes the perfect gift. Made completely in U.S.A.

Magni-Pak Magnifiers

Magni-pak magnifiers are available in a range of powers extending from 3X to 9X. These magnifiers consist of models that have both single and double lens systems offering extreme versatility. The lenses in the double lens magnifiers can be used alone or in combination to produce the desired magnification. The swing away case is designed to be used as a handle when the magnifier is in use and a protective case when not in use.

Opti-Pak Magnifiers

The Opti-Pak Magnifiers offer a unique design compact in size that is convenient to carry in pocket or purse. The durable plastic case slides open for use as a handle and snaps shut to protect the magnifier when not in use. Three different powers are available to provide the right magnification for the right job. Magnifiers are color coded by Magnification.

Opti-Pak Magnifiers

P-703 Slide Out Pocket Magnifier. 3X
P-704 Slide Out Pocket Magnifier. 4X
P-705 Slide Out Pocket Magnifier. 5X
A-2060 Round Hand Magnifier
Same powerful 5X aspheric lens as used in the A-2028 magnifier, conveniently mounted in a hand held reader. Compact design easily fits into pocket or purse.

A-2072 Rectangular Stand Magnifier
Same 3X aspheric rectangular lens as used in the A-2000, but mounted in a prefocused stand. Fits conveniently over surface to be viewed.

A-2000 Illuminating Hand Magnifier
Distortion free powerful 2”x4” aspheric lens provides 3X magnification. Bright 6 watt bulb combined with brilliant reflector gives maximum lighting over viewing area. Natural hold switch activates light when in use and allows for automatic shut-off of light when not in use. Detachable cord with strain relief easily unplugs for use with or without light. Additional bulbs and power supplies can be ordered separately for convenient replacement.

A-2024 Rectangular Hand Magnifier
Magnifier utilizes the same 3X aspheric rectangular lens as in the 2x4 illuminated magnifier but without the light. Sleek lightweight designer handle allows for hours of comfortable use.

A-2028 Round Stand Magnifier
Powerful 5X aspheric lens mounted in a prefocused stand allows users to view large 60mm. area. Great for any activity requiring distortion free viewing at higher magnifications.

About Aspheric Magnifiers
Aspheric magnifiers unlike spherical magnifiers provide an "orthoscopic" image. Our aspheric lenses are shaped with a variant radii calculated to produce a sharp image right to the edge of the lens. This allows for distortion free viewing over the entire lens area with greater magnification than is possible with a normal spherical lens.
A-2060 Round Hand Magnifier
Same powerful 5X aspheric lens as used in the A-2028 magnifier, conveniently mounted in a hand held reader. Compact design easily fits into pocket or purse.

A-2072 Rectangular Stand Magnifier

The Donegan Clip-On Binocular Magnifier is ideal for small tasks that require hands to be free. Easily clips onto most eyeglass frames or can be used with comfortable binocular frame. Easily pivots up when magnification is not needed.

Special Features
- Dual prismatic lens system designed to ease eye strain due to convergence on focal point.
- Lightweight frame easily clips onto most eyeglasses or can be used with convenient binocular frame.
- Ideal for reading fine print, sewing, art projects, fly tying etc.
- Easily flips up for normal viewing and down when magnification is preferred.
- Relieves eye strain and increases accuracy.
- Hands free magnification for many small tasks.

Available in assorted colors.

OptISPHTM magnifying visor provides hands-free magnification for more accurate and efficient viewing. The visor tilts up for normal viewing, or down for magnification. OptISPHTM brings work closer into focus, reducing eye strain and fatigue. Available in assorted colors.

Special Features
- Precision optical grade acrylic prismatic lens
- Included are three different interchangeable lens plates, that are simple to change: 3X, 4X & 5X magnification. Also available, (LE-7) 7X magnification.
- Visor can be worn over prescription or safety glasses.
- Visor design shields out unwanted glare.
- High strength plastic will not break.

THE MASTERPIECE COLLECTION FEATURES
- Optical Glass Lenses ground and polished to precision standards.
- Scientifically balanced and contoured handles for comfortable use in either hand.
- Functional Design with wide rim to protect lens surfaces.
- Individually packaged - makes ideal gifts.

M-802 Round Magnifier (not shown)
2 1/2” round lens, 7 diopter power, 6” focal length.

M-803 Round Magnifier (not shown)
3” round lens, 8 diopter power, 5 1/2” focal length.

M-804 Round Magnifier
4” round lens, 4 diopter power, 10” focal length.

Flex-A-Mag . . .204D
This desk base magnifier is designed for stability and appearance. The powerful 4 diopter lens is selected for best field of view and focal length. Convenient adjustable flex arm leaves hands free for work, making small jobs easier and faster.
- Light weight optical grade Acrylic Lens is mounted on a 12” flexible arm for convenient use.
- Leaves hands free for work under the powerful 4 diopter lens.
- Makes small jobs go faster and easier.

Optisight magnifying visors are available in three different magnification powers: 3X, 4X, and 5X. They are designed to provide hands-free magnification for tasks such as reading, sewing, and art projects. The visor design shields out unwanted glare and is made of high-strength plastic that will not break. They are individually packaged and make ideal gifts.

Optisight’s special features include precision optical grade acrylic prismatic lenses, which provide high-quality magnification. The lenses are ground and polished to precision standards, ensuring accurate and efficient viewing. The visors are scientifically balanced and contoured for comfort in either hand. They feature a functional design with a wide rim to protect the lens surfaces. They are also individually packaged for ideal gift-giving.

The Donegan Clip-On Binocular Magnifier is designed for small tasks that require hands to be free. It easily clips onto most eyeglass frames or can be used with a convenient binocular frame. The magnifier is lightweight and can be easily flipped up for normal viewing and down for magnification. It relieves eye strain and increases accuracy. The magnifier is available in assorted colors.

The Masterpiece Collection features optical glass lenses that are ground and polished to precision standards. The lenses are scientifically balanced and contoured for comfort in either hand. The collection includes a functional design with a wide rim to protect the lens surfaces. The magnifiers are individually packaged, making them ideal gifts.

Flex-A-Mag is a desk base magnifier designed for stability and appearance. It features a powerful 4 diopter lens selected for the best field of view and focal length. The magnifier is lightweight and leaves hands free for work. It is mounted on a 12” flexible arm for convenient use. Flex-A-Mag makes small jobs go faster and easier.
Lightweight and Economically priced readers

Quality lightweight acrylic lenses produced to high ophthalmic standards. They have durable ABS plastic handles in attractive color. Designed for comfortable use in either hand. All are attractively packaged and make ideal gifts.

C-624 Rectangle Reader
- 2"x4" lens, 4.5" diopter, 9" focal length

C-602 Round Reader (not shown)
- 2.5" lens, 7" diopter, 6" focal length

C-603 Round Reader (not shown)
- 3.25" lens, 5" diopter, 8" focal length

C-604 Round Reader (not shown)
- 4" lens, 4.5" diopter, 9" focal length

C-610 Lighted Handi-Mag
- 2"x4" lens, 4.5" diopter, 9" focal length

C-625 Rectangular Reader with bifocal (not shown)
- 2"x4" lens, 4.5" diopter, 9" focal length

C-610 Illuminating Hand Magnifier

2"x4", 4.5 diopter acrylic lens is produced to high ophthalmic standards. Bright 6 watt bulb and brilliant reflector cover adapts for both right and left hand use. Natural hold switch activates light when in use and allows for automatic shut-off of light when not in use. Detachable cord with strain relief easily unplugs for use with or without light. Additional bulbs and power supplies can be ordered separately for convenient replacement.

VisorLIGHT® is a unique lightweight battery powered light, that illuminates magnified viewing area. It easily clips onto the visor of most headband binocular magnifiers. The light adjusts up or down to ensure that maximum light is on the work area. Two models are available to allow complete mounting: LT-42 (shown above) with a 42" long cord so the battery pack can be worn on a belt or placed in a pocket. LT-06 (shown below) with a 10" short cord for mounting directly on a headband.

- Hands Free Light
- Xenon Laserbeam Bulb
- 6000 Candle Power
- 4 To 5 Hours Battery Life . . . Continuous Use
- Model LT-06/Visor Mounting . . . 10" Cord
- Model LT-42/Extended Battery Pack Mounting . . . 42" Cord
- Operates on two AA batteries (not included)
V-394-15X Achromatic Magnifier,
Coated lens systems void color aberrations. 15mm.
lens mounted in beautifully finished chrome plated
brass case. Comes with vinyl carrying case.

V-394-20X Achromatic Magnifier,
Same as above except offers the higher magnification.

V-980-5 Flashlight Magnifier
Popular magnifier, sets on item to be magnified
and lights viewing area, bottom scale for accurate
measuring. 50MM lens, 5X magnification.

V-980-10 Flashlight Magnifier
Same as above except offers the higher magnification.

V-388-1 Linen Tester,
Double lenses mounted in black enameled
brass frame, folds flat. Used in graphic
arts, engraving and industrial inspection.
1” Lens, 5X Magnification

V-388-3/4 Linen Tester,
Same as above but with 3/4” Lens,

OptiVISOR® is a precision biconvex headband magnifier which permits unrestricted user efficiency while reducing eye strain - leaves both hands free and allows three dimensional vision - Used by anyone whose profession or craft requires close accurate work - Can be worn over prescription or safety eyeglasses.

OptiVISOR® is equipped with these unique features:
•  Optical Glass Prismatic Lenses - Ground and polished to precision optical standards - bevel edged and mounted in interchangeable plastic frame.
•  It tilts - Adjustable pivots allow the visor to be tilted out of the way when not needed and at your fingertips when you need magnification.
•  Adjustable Headband - Conforms to fit all head sizes - fabricated from a special blend of lightweight material - comfortable when worn for long periods of time.
•  High Impact visor - Provides a tough, durable, always new appearance.
•  Genuine Leather Comfort Band - Padded with orthopedic felt adds to comfort.

OptiLOUPE® is an attachable lens that adds the additional power of an Eye Loupe to the OptiVISOR®.

•  Designed for Monocular use, the OptiLOUPE® easily flips up or down providing additional 2 1/2X magnification.
•  Easily attaches to either eye of any OptiVISOR®.

Order OptiVISOR® in any of these six lens options:

Donegan Optical Company, Inc. since 1952 has been manufacturing precision visual aids for industry, home, office and crafts. Donegan products are 100% USA fabricated in our Lenexa, Kansas facility where we are fully equipped for precision glass grinding and polishing, injection and compression plastic molding, and design and tool development. Quality is our goal from the design to the finished product. Donegan Optical Company also distributes other domestic manufactured products as well as some imported visual aids. Every product manufactured or sold by Donegan Optical Company is guaranteed to function as intended and to be as listed. We have been manufacturing quality products for over 45 years and our promise to our customers is for continued quality and service with our product line.

All D.O.C. products featured on pages 3 thru 13 are manufactured in U.S.A. by skilled craftsmen.
